

REFERENCES FOR REGISTERED MEDICAL ASSISTANT CERTIFICATION EXAMINATION

Competency-based, criterion-referenced examinations are not based solely on textbook information, but on the skills and competencies required for safe and successful performance as a healthcare practitioner. Nevertheless, the following resources may be useful in reviewing information required for the examination and for organizing the material for study purposes.

When selecting books, always confirm that you have the most recent editions. The references provided here may or may not represent the current editions.

In addition, do not limit your study to the resources provided here. Although the references listed below present useful information, there are a number of additional or alternative sources that are also suitable for study. The list, therefore, should be considered illustrative rather than exhaustive. The references should be available online or from the publishers.
